

KYLA FITZPATRICK

Software Engineer — 8 years in QA & engineering

704.748.3653 | kfitzpatrick44@gmail.com | github.com/KylaFitzpatrick | linkedin.com/in/kylaannefitzpatrick

SUMMARY

Software engineer leveraging 8 years of experience in QA and collaboration in engineering environments — currently Software Engineer III at Walmart Global Tech. Also designs and ships fast, modern, production-ready websites end to end, pairing a modern React stack with an AI-augmented workflow (Emergent, Claude) and Adobe design tooling.

SELECTED WORK

Chill Flows chillflows.com

A social wellness community for mind, body and soul — journaling with an AI Ayurvedic guide, dosha-matched yoga flows, meditations and a shared ritual feed. Shipped with iOS & Android app onboarding.

Grá Creation gracreation.com

An independent Irish atelier for music, photography and visual artwork — artist accounts, a shoppable collection, watermarking and hand-released pieces sold directly from the artist.

Bloomers LKN bloomerslkn.com

A warm, conversion-focused site for a woman-owned plantscape design & installation studio in Lake Norman — services, project gallery and a consult inquiry flow that turns visitors into clients.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, Python, C#, SQL, HTML5 & CSS3, React, Node.js, Express, GraphQL

Testing & Platforms: Cypress, TestCafe, Selenium, Pytest, Postman, Docker, AWS, Jenkins, MongoDB, Git & GitHub

AI & Design Craft: Emergent, Claude, Adobe Photoshop, Adobe Express, Figma, Prompt Engineering

EXPERIENCE

Software Engineer III — Walmart Global Tech

Sunnyvale, CA · 2024 — Present

- Contributed to creating end-to-end test scripts with TypeScript and TestCafe
- Owned end-to-end testing for new features in collaboration with cross-functional teams
- Utilized Sauce Labs for mobile test execution on iOS and Android devices

Software Development Test Engineer — Encoura

Remote · 2021 — 2022

- Created REST API and GraphQL automated test scripts with Python and Pytest
- Learned load testing with Locust and Blazemeter in collaboration with colleagues
- Built Python test scripts and framework to verify GraphQL queries and mutations

Software Development Engineer in Test — Koupon

Remote · 2020 — 2021

- Created and maintained Cypress end-to-end automated test scripts
- Deployed builds to QA environments with Jenkins
- Assisted in creating API automated test scripts in JavaScript, TypeScript and Mocha

Software Engineer in Test — CoStar Group

Austin, TX · 2019

- Created and maintained UI automated test scripts in an Agile SDLC
- Built automated test suites with Visual Studio and Selenium

- Documented and tracked bugs in TFS with developers and product on an agile team

Junior Software Development Engineer in Test — ESO

Austin, TX · 2018

- Executed functional and regression tests for fire department applications in an Agile SDLC
- Leveraged Postman for API testing and Sauce Labs for cross-browser and device testing
- Documented bugs in Jira in collaboration with developers and product

Quality Assurance Engineer — CoStar Group

Austin, TX · 2016 — 2018

- Created and maintained UI automated test scripts in an Agile SDLC
- Learned automation testing with Visual Studio, Selenium, SpecFlow, Git Extensions and C#
- Created SQL statements to validate data in a SQL database

Associate Quality Assurance Engineer — CoStar Group

San Francisco, CA · 2016

- Created and executed test cases per business requirements in an Agile SDLC
- Collaborated with developers and designers to document and resolve bugs in TFS
- Functional testing in Firefox, Internet Explorer and Chrome, plus iOS and Android devices

Junior Quality Assurance Analyst — CITCO

Charlotte, NC · 2014 — 2015

- Analyzed test scenarios and cases in HP Quality Center and logged defects during functional testing
- Liaised with developers to ensure testing accuracy for over four hedge fund applications
- Developed and executed ad hoc and regression tests across all stages of an Agile SDLC

EDUCATION

Bootcamp in Full Stack Web Development

University of Texas — Austin, TX · A 6-month program focused on learning technical programming skills

B.S. Business Administration, International Business

The University of North Carolina at Charlotte — Charlotte, NC
